

Starlight Orchid

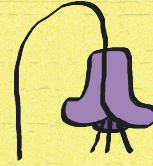

1 Resilience — Aggression 0

A flower familiar, yet strange. If you peer hard enough into its petals, you swear you can see somewhere else.

Grows 1 tile on Full, Half, and New Moons. New growth can be placed on any tile in the garden, not just on tiles adjacent to other Starlight Orchid.

Whispering Belle

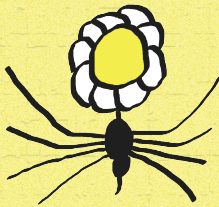

1 Resilience — Aggression 0

A delicate and beautiful flower. When you sit near it and listen, the whole world seems quieter.

Grows 1 tile every Gibbous and Crescent Moon. Nothing new can grow adjacent to it on moons when it does not grow.

Spidervine

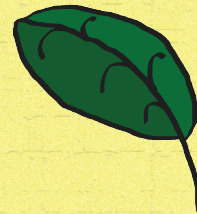

4 Resilience — Aggression 5

A wispy parasitic vine that grows on other plants. Sometimes, its tendrils look like spindly legs.

Grows 2 tiles per cycle, but can only grow on tiles with plants in them. Spidervine dies if it is alone on a tile.

Dewleaf

4 Resilience — Aggression 0

A leafy green bush. It excretes a thick, clear fluid that is reminiscent of morning dew—useful in healing salves.

Grows 2 tiles per cycle, but only if no plants other than Dewleaf are adjacent to it.
